Changes on the Budapest-Vienna railway line

From 18th September 2023, passenger train services on the Budapest-Vienna line will change significantly due to track renewal.
Between 27.10.2023 and 17.11.2023, significant changes in train traffic are expected due to the ongoing reconstruction of the Budapest-Győr- Vienna (Wien) railway line. The next phase of the reconstruction involves a total closure of the line between Budapest and Tatabánya, thus affecting the trains running between Austria, Germany, Switzerland, Romania, Ukraine and Hungary. Replacement buses and longer journey times should be expected. All passengers are requested to check the updated train timetable before travelling.

The reconstruction of the Budapest-Tatabánya line is entering its **third and final phase**, passenger train services on the Budapest-Vienna line will change significantly due to track renewal **from 18th November 2023.**
International passengers can expect longer journey times. For domestic services, shorter train journeys and replacement bus services are expected.
