Health and safety

Since 1 June 2013 the HSE organisation of MÁV Szolgáltató Központ Zrt. has been responsible for the health and safety tasks required for healthy and safe work at the members of the MÁV Group having a service level agreement (currently MÁV Zrt., MÁV-START Zrt., MÁV Vagyonkezelő Zrt.) and MÁV Szolgáltató Központ Zrt.

The HSE organisation provides health and safety and fire safety services defined by law to its current partners across the country. Our activities cover the full range of health and safety activities defined by law, provided to our clients. Our services:

· Health and safety training (syllabus preparation, delivery of the training, training of newly recruited employees, periodic and extraordinary HSE training)

· Preparation of the Health and Safety Regulations

· Investigation of accidents at work, preparation of accident reports

· Keeping records of accidents at work, preparing statistics

· Decision on the hazard category of work premises in terms of health and safety

· Preliminary health and safety inspections

· Periodic security audits

· Investigation of road accidents

· Definition of individual protective instruments

· Health and safety inspections

· Involvement in the extraordinary review of work premises, individual protective devices, work devices and the technology

· Representation of the employer towards the health and safety authorities

· Prior health and safety inspection of machines and equipment before commissioning

· Control and periodic control inspection of work devices

· Risk assessment and decision on preventive measures

· Involvement in the preparation of rescue plans

· Elaboration of the safety content of the prevention strategy

· Classification for fire safety purposes

· Preparation of the Fire Safety Regulations

· Preparation of fire alarm plan

· Delivery of fire safety training

We are also willing to serve other clients based on our available capacities and professional expertise. Relying on many years of our professional experience, we will be able to also offer you cost effective solutions with which you can not only avoid fines, but your company will be able to create a more transparent and consistent health and safety and fire safety system, with which you can save time and energy, and then use those to improve the efficiency of your company.

If you are interested in our health and safety and fire safety services or wish to receive more detailed information about our services, please do not hesitate to contact us:
