TANYKPAYEVA ALIYA
spicc-cipője
A spicc-cipő a balerinák légies
mozgásának egyik emblematikus
kelléke, mely a mai napig nagyrészt
kézzel készül. A keményített orrhegy és
a megerősített talp segíti a táncosokat.
A balerinák maguk törik be a cipőiket,
varrják fel saját igényeik szerint
a gumipántokat és
a szalagokat.
